Capilo
CAPILLARY TREATMENTS

Personal Solutions
for Thinning Hair &
Scalp Problems

**NO SULFATES, NO SILICONES,
NO PARABENS AND NO ALLERGENS.**

SALON _____

TEL _____

To ensure a healthy hair, it is extremely important to analyze our scalp and hair to determinate the appropriate treatment. Being aware of this need, **CAPILO treatments are divided into 3 phases:**

1
step

DIAGNOSIS

Microcam with Diagnosis software to analyse the general health of your hair and scalp.

2
step

SCALP PREPARATION

The Cool 3D technology integrated in the Pre-treatment acts directly on the scalp, producing cold/hot/purifying effect that enhances blood circulation, stimulates the contraction & dilation of skin pores, which in turn boosts the penetration and the effectiveness of the Capilo treatments.

3
step

HOME CARE TREATMENT

Capilo treatments offers personalised solution that fights every hair & scalp problems, whether it's progressive hair loss / dry dandruff / hair loss and oily hair / oily scalp and dry hair.

STEP 1 | PEELING: Gentle exfoliator that boosts the regeneration of the epidermis.

STEP 2 | SHAMPOO: Specific treatment Shampoo for all hair and scalp problems.

STEP 3 | LOTION:

- Stem Cell Activator
